Re: Wisconsin Certified Sites Program

Dear Mr. Callis:

On behalf of the City of Verona, I would like to express that the members of the Verona City Council and I support the inclusion of the Liberty Business Park property in the Wisconsin Certified Sites Program.

The City of Verona is committed to continued economic development, job creation, and the diversification of the local tax base. In order to support this goal, the City has worked to support the creation of the Liberty Business Park to provide sites for additional industrial development within the City. This property has the appropriate zoning for industrial development and in March of 2011, the City of Verona approved a project plan amendment to our Tax Incremental District No. 6 to accommodate the development of this business park. We are currently working with the developer to extend infrastructure and utilities to park to make the site "shovel ready" for new projects. Under the current timeline, infrastructure improvements for phase one of the park would be completed by November, 2012.

The City of Verona looks forward to working with the Wisconsin Economic Development Corporation to promote development in Liberty Business Park and throughout the community.

Sincerely,

A handwritten signature in black ink that reads 'Jon Hochkammer'. The signature is written in a cursive, flowing style.

Mayor Jon Hochkammer
City of Verona
